**OFFICE OF PETITIONS**

Dear Sir:

Pursuant to 37 C.F.R. §1.97, as revised on February 4, 1992, 1135 OG 23-24, Applicant hereby call the Examiner's attention to documents listed on the attached form, which documents may be material to the examination of this application. A copy of each reference is enclosed.

The family of JP 09-171192 cited herein includes:

US patent application no. 08/770,792

Applicant also wishes to bring Embodiment 2 and Fig. 9 of these references to the Examiner's attention as possibly being material to the patentability of the claims of the present application.

No inference should be drawn that any apparatus disclosed is equivalent to the subject

invention.

The citation of the above-discussed documents is not to be construed as an assertion that more pertinent art could not possibly be in existence. Citation of any document herein is not to be construed as an admission that any subject matter disclosed in the document is necessarily within the inventive field of endeavor, that any disclosure is necessarily prior in time to a particular date which may be relevant to the instant patent application, and/or that any disclosure is otherwise necessarily prior art with respect to the instant invention.

Applicant also respectfully reserves the right to later set forth how the instant invention is distinguished over the disclosure of any document or other art, including the disclosure of those documents discussed herein, that may be cited by the Examiner in rejecting a claim in the instant patent application.

As a RCE is being filed herewith, no fee is believed due for this IDS. If a fee should be due for this IDS, please charge our Deposit Account No. 50/1039.

Respectfully submitted,
